

PSQ-23CNC Stack Quilter

Overview:

ABM International, Inc. introduces the world's first ever fully automatic piece work quilter. The **PSQ-23CNC Stack Quilter** virtually operates by itself. Simply load a stack of product into the **Stack Quilter** (pillow shams, baby comforters, cushions, padded seats etc.) and move on to another machine. The **Stack Quilter** takes the product one piece at a time, automatically racks it, quilts or sews the pattern on the material, and drops the finished product into a pile. This process will cycle again until the entire stack table has been finished.

Features & Benefits:

- The **Stack Quilter** is fully automatic, allowing multiple machines to be run by a single operator and eliminating ergonomic issues associated with sewing by hand.
- The **Sewing Head** is a full computer controlled quilting system capable of sewing any pattern on your product.
- A color **Touch Screen** user interface with Pentium computer processor allows for user friendly operation.
- The **PSQ-23CNC** provides versatility of operation capable of sewing many different kinds of materials with varying thickness for various end use applications

Specifications:

- ✓ Electric: 220V AC 3 Phase
- ✓ Pneumatic: 100 PSI, .25 CFM
- ✓ Floor Space: 17' X 7'
- ✓ Weight: 2,500 lbs.
